

Knox County Schools

Andrew Johnson Building

Buzz Thomas, Interim Superintendent

Dear Parent/Guardian:

The Knox County Schools is piloting a web-based application that provides parents the opportunity to visually track the location of their child's regular in-zone assigned school bus. Buses transporting students to pre-school, special education, magnet, and other unique programs are not included in the initiative. Parents/Guardians must register in order to use the application. We have included some visuals to assist you with the registration and log-in requirements. The website is <http://herecomesthebus.com>. If you need additional assistance with the application please contact the Knox County Schools Transportation Department at 594-1550.

The screenshot displays a web-based bus tracking application. At the top left is a bus icon. The top right corner features the text "ENGLISH". Below this is a navigation bar with buttons for "MAP", "NOTIFICATIONS", "MY ACCOUNT", "HELP", and "LOG OUT". The "MAP" button is highlighted with an orange background. Below the navigation bar is a header area with a "Passenger:" label on the left and a "Time Of Day:" label on the right. Under "Time Of Day:", there are refresh options: "Off", "10s", "20s", and "30s", with "30s" selected. The main area is a map of Tennessee, showing major cities like Knoxville, Nashville, and Chattanooga, along with various highways. A legend in the top right corner of the map area lists several status icons: a red stop sign for "Bus Has Not Arrived", a green bus icon for "Arrival Occurred", a red school stop sign for "School Stop Not Occurred", a green school stop sign for "School Stop Occurred", a yellow bus icon for "Bus Last Position", and a notification bell for "Notification Sent". A zoom control icon is visible in the bottom right corner of the map.
