Is it possible to gain all required credits by December? \_\_\_\_\_ YES \_\_\_\_\_ NO

If YES, please complete the following:

1. Submit a **Graduation Plan** for review. The student's school counselor, their assistant principal, and Dr. Bartlett will review the plan before a final decision is rendered. The purpose of the graduation plan is to assess the student's understanding of their decision to graduate early and their understanding of the steps needed to reach their goal. The graduation plan must be typed and signed by the student and parent/guardian.  
This plan must outline specific reasons for wanting to graduate early **AND** detailed steps on how to achieve the post-secondary goal. For example, a student who wants to attend a community college in January of their senior year might detail where and when they will apply to the college, what courses they plan to take, and when they will apply for financial aid. Likewise, a student who wishes to enter the workforce or military in January should provide details of the job secured, how graduating early is necessary for their career goal and why electing to stay at Bearden until May of their senior year would impede their career goals.
2. Attach the typed graduation plan to this form and submit to your school counselor for further review.
3. By signing below, I acknowledge that it is my responsibility to obtain information from my future college(s) about how my scholarship awards may be affected by this decision. I also acknowledge that the TN Promise Scholarship may not be used until August.
