## Suttle's Puzzles

*They're deceptively simple*

Mr. Suttle has always enjoyed giving his students a challenge through puzzles that involve a little math, and a lot of thinking. Can you solve this one? The first person with the correct solution gets a free drink! Bring your solution (with a full explanation, of course) to Mr. Suttle.

Here's this month's puzzle:

How many triangles are in the image below? (They can be any size!)

No one can take away your education – except you.

*Are you going to take it away from yourself?*

## Spring Break!

*We've all been waiting for it.*

It's finally here! A full week of no school. Not only that, but it means we are half way through the spring semester! That can be exciting and scary at the same time, since that means that graduation is getting closer and closer. Use the fact that time is quickly dwindling as motivation to get those credits completed. But in the mean time – HAVE FUN ON SPRING BREAK!

## What are you doing for Spring Break?

*What the polls say...*

90% of us are staying in town, 20% of us are going to try to enjoy the weather, 60% of us are hoping to spend time with family, and 100% of us are excited to not have to wake up early for school.

### TN Promise has requirements!
