MARCH 2 SUCCESS

MARCH 2 SUCCESS

March 2 Success is an online, self-paced course designed to improve your performance on standardized tests while enhancing your math, science, English and STEM (Science, Technology, Engineering, and Math) Skills.

To have a strong future, the U.S. Army provides all its employees with a large selection of educational programs and benefits.

Now the Army is extending that commitment to anyone over the age of 13.

March 2 Success is available 24 hours a day 7 days a week so students can log on at times that are convenient for them. March 2 Success is free. There is no obligation.

CONTENT

March 2 Success provides cutting-edge assessment software and world-class education content in an easy-to-use, self-paced format designed to accelerate the student learning curve for state assessment testing, SAT and ACT practice and preparation. This content was developed by Peterson's, a Nelnet company.

Peterson's has been a leading provider of solutions for the education community for more than 40 years. Its online and print resources help students increase test scores, find a college that fits their educational goals, maximize higher education affordability and explore careers.

March 2 Success is an interactive online test preparation system that is unsurpassed. The system provides a full array of subject specific assessments and remedial courses tailored to the student's educational needs, as well as practice drills and tests. The March 2 Success system can enhance and refresh your knowledge to assist you in achieving your educational or career goals.
