

Counselor's Corner September 01, 2017

Did You Know?

Girls/minority students need to start early picturing themselves in STEM related careers. This year at STEM night, we will have booths featuring various STEM careers for students to visit! Several booths will be hosted by BG parents who have STEM related careers!!

Hot Career News!

STEM careers in the transportation field are looking for women and minorities in the coming years. Transportation STEM careers include a wide range of exciting occupations including: Civil, Mechanical & Computer Engineers, Environmental Scientists, Urban Planners and many others. Why women to fill these jobs?

- Women comprise 50% of the US workforce but only 2-20% in STEM transportation jobs.
- Employing women/minorities in companies increases the productivity.
- Companies with more diverse workforces are 15% more likely to outperform competitors.
- Transportation careers expect 50% retirement rate in coming years.
