School Psychologist

School psychologists evaluate students who are having difficulty in school. They assess students who may struggle with learning disabilities, Autism, anxiety, ADHD, or other issues that impact their learning. After evaluation, they help make recommendations to ensure students are successful in school, including supports and services available through special education.

School Social Worker

A school social worker assists students with socio-emotional challenges and links school, home, and community services. They monitor school's chronic absenteeism rate as well as each individual student's attendance and help make improvements as needed.

School Counselor

School counselors work with all students in the building. They prepare students to be successful socially, academically, and professionally. School counselors teach classroom lessons, lead small groups, and meet individually with students.
