PERFORMANCE TASKS

Revisit the LIft and make changes as necessary. Complete pages 2-3 of the template to map your plan going forward.

After looking at the self-assessment, choose performance tasks that will add to your personal “tool set”.

Use your Learning and Implementation Focus Template to self-assess and decide: what do you need to learn and implement this year that will be powerful and relevant for your program?

Choose self-paced “performance tasks” to complete according to your individual needs. Document and share learning by discussing with others who are working on the same tasks, and/or participating in online communities.
