To student athletes and their parents/caregivers:

Before you can play a sport the TSSAA (Tennessee Secondary School Athletic Association) says you must get a sports physical. This is also called a PPE (Preparticipation Physical Evaluation). The PPE promotes the health and well-being of athletes as they train and compete. It also helps keep athletes safe as they play sports. It is NOT meant to stop them from playing.

Where can you go to get a PPE? In the newest PPE guidebook, the groups below say your doctor's office or the place where you get your medical care is where you can go to get it done:

- The American Academy of Pediatrics
- The American Academy of Family Physicians
- The American College of Sports Medicine
- The American Medical Society for Sports Medicine
- The American Orthopedic Academy of Sports Medicine
- It's also endorsed by the National Athletic Trainers' Association and the National Federation of State High School Associations

There are other places you can get a PPE, but we recommend athletes get a PPE during their Well Visit at their doctor's office or School Based Health Center. This ensures exams cover everything important about your overall health and well-being. It also limits absenses from school and sports.

We encourage you to work the PPE into the routine health care you get at your doctor's office or the place where you get your medical care. If you're enrolled in TennCare your well visits are free.

Sincerely,

Tennessee Secondary School Athletic Association Tennessee Chapter of the American Academy of Pediatrics Tennessee Division of TennCare

Do you have TennCare and need to know who your doctor is? You can call your MCO at:

Amerigroup: 1-800-600-4441 BlueCare: 1-800-468-9698

UnitedHealthcare: 1-800-690-1606 TennCareSelect: 1-800-263-5479

This form should be placed into the athlete's medical file and should not be shared with schools or sports organizations. The Medical Eligibility Form is the only form that should be submitted to a school or sports organization.

Disclaimer: Athletes who have a current Preparticipation Physical Evaluation (per state and local guidance) on file should not need to complete another examination.

- 1. Consider additional questions on more-sensitive issues.
  - Do you feel stressed out or under a lot of pressure?
  - Do you ever feel sad, hopeless, depressed, or anxious?
  - Do you feel safe at your home or residence?
  - Have you ever tried cigarettes, e-cigarettes, chewing tobacco, snuff, or dip?
  - During the past 30 days, did you use chewing tobacco, snuff, or dip?
  - Do you drink alcohol or use any other drugs?
  - Have you ever taken anabolic steroids or used any other performance-enhancing supplement?
  - Have you ever taken any supplements to help you gain or lose weight or improve your performance?
  - Do you wear a seat belt, use a helmet, and use condoms?
