VOCABULARY STUDY TIPS + TRICKS

QUIZLET

Online flashcard site that provides students with multiple study options along with the availability to practice pronunciation.

- **Signing up for Quizlet:**
 - Go to quizlet.com & sign-up using your Knox County e-mail address (s#####@student.knoxschools.org), or sign-in using an existing account.
 - Then, join the Spanish 2 Honors summer class (<https://quizlet.com/join/eFzSehcjH>).
- **Studying with Quizlet:**
 - **Learn** - students go through all words in a deck at a variety of levels of comprehension. The questions start easy, and get more difficult as the students begin showing mastery of words.
 - **Flashcards** - Good old fashioned flashcards, just online instead of handheld.
 - **Write** - shows definition, and student writes term.
 - **Spell** - Reads word aloud for kids to write the opposite definition (English or Spanish)
 - **Match & Gravity** - both are games that allow students to quiz themselves after studying
 - **Test** - students can test themselves using this feature
- **Printing from Quizlet:** From the drop down list of the deck, students can print lists and even hand-held flashcards directly from the deck homepage.

FLASHCARD PRACTICE

Making handheld flashcards is also a great practice for students. There are a variety of games and ways that students can use handheld flashcards to study. Here are some suggestions:

- **Categorization:** As the student begins becoming familiar with the words, they could make up categories in which the verbs best fit. When students make up ways that words correlate, these ideas that they generate really help terms stick in their minds.
- **Silly Sentences:** By taking a handful of cards at random and putting them down in order, students could create silly sentences that would use those terms in order to help them memorize them.
- **Memory (multi-player):** play the old school game memory where words are face down and you have to match the pairs in order to keep them. Person with most matches at the end wins.
- **Flashcard Game (multi-player 3+):** Players designate the dealer of the round. The dealer holds all cards together and shows one definition out to the other players at a time. The other players are trying to be the first person to correctly identify the term being shown. Whoever first identifies the term, keeps that card until all cards have been played. The person with the most cards at the end of the round wins and becomes the dealer of the next round.

OTHER STUDY TIPS

The below are articles that provide other ideas of how to best study vocabulary for retention.

- **Zig Zag Method:** Fold a piece of notebook paper in half (*hotdog fold*) then again in (*hotdog again*) in order to provide yourself with four distinct columns on the paper. Then, write the Spanish terms on the first column. Put your vocab list away, then try to remember the English for the terms you wrote down. When you have given up, circle where you have blanks. Then take your list back out, and fill in the blanks. Fold the first column under the paper so that you can no longer see it, and then try to quiz yourself from English to Spanish. Again circle the ones you cannot remember, then use your list to fill in gaps & correct your errors. Repeat until you feel you have learned the words.
