

Statistics Summer Assignment Spring 2019

What is Statistics? Why are you taking it? If you are not sure, I hope the following videos will help you answer these questions. Watch the following videos, then write a one page paper on why you should and why you are taking AP Statistics. The paper should be typed and in size 12 font. Refer to something from at least five of the videos in your paper. This is due no later than January 19, 2019. I am glad that you chose to take AP Statistics!

If you would like to click on the links directly, this document can be found on the school website under summer assignments.
