1. There are directions at the top that are specific to the track selected. In this example, the directions for selecting an English class are provided.
2. Often the core subjects will be grayed out and a student will be unable to make changes because the teacher recommended course is the default.

Subject area: Alternate Courses

Instructions:

- You must select 4 alternate elective courses.
- Please make sure you are selecting courses that will fulfill your elective focus. (3 courses in the same focus area)
- These are courses you are willing to take, if one or more of your elective choices are not available.
- Do not submit courses that you have already requested as core or electives as alternate courses!
- Alternate courses must be different.

3. If there are many courses offered in the track, use the navigation to find the correct course. The grid only shows 10 at a time.... Use the arrows or pop-up to navigate through the choices. Check the boxes to the left of the course(s) to select.
4. When choosing Alternates, DO NOT choose the same class more than once! Adding the course multiple times does not increase your chances of being placed in a class that is already full, it only increases the chance that you will have an incomplete schedule in July.
5. If the option is given, please indicate a priority for course selection.
