SCHOOL COUNSELOR CONNECTION

*You are braver than
you believe, stronger
than you seem, and
smarter than you
think*

Farragut Middle School Counseling Department

Seventh Grade Counselor – Dr. Linda Treadwell, (865) 966-9756

Eighth Grade Counselor – Mrs. Melissa Wright, (865) 966-9756

Registrar – Mrs. Jennifer Sonneschein, (865) 966-9756

Vanderbilt University offers programs for Talented Youth – please visit the following link for more information: <https://pty.vanderbilt.edu/>

Vanderbilt Programs for Talented Youth offers accelerated courses for gifted and high-achieving students in Kindergarten through 12th grade. Courses are designed for academically talented and motivated learners. PTY strives to offer courses led by Vanderbilt faculty, graduate students, and content experts that focus on the following:

- **Exposure** to a variety of accelerated content areas in which students have documented potential and interest
- **Efficacy** in one's ability to perform rigorous tasks in a content area and develop social-emotional habits of a scholar
- **Expertise** and in-depth learning in an area of interest and talent

On-campus programs are hosted on Saturdays during the academic year and on weekdays during the summer months.

Wake Forest University Pre-College Programs would like the opportunity to share information about our Summer Exploration Program for middle school students.

The [Summer Exploration Program](#) is a transformative, week-long experience for rising 7th through 9th grade students designed to provide an introduction to Wake Forest University and the opportunity to explore the world of science, technology, engineering and math.

We have received middle school applicants from Farragut Middle School and were impressed with the curiosity and desire to participate in our program.

[The College of Engineering at Tennessee Tech](#) would like to extend an invitation to your rising 8th and 9th grade female students for the 2022 Engineering a Future Summer Camp!

Engineering a Future (EAF) is a 5 – day experience for rising 8th and 9th grade young women with an interest in engineering, taking place from June 6 – 10. This is a residential camp and food and board will be provided. This is an amazing opportunity for students to learn more about the field of engineering, make connections with other young women interested in STEM, and be mentored by current female engineering students and professionals! Campers will be led in exciting, hands-on experiments, participate in fun engineering challenges, and have the chance to explore our campus.

Registration closes **April 1st** and there is a **\$25 attendance fee**. Fee waivers are available.
