Knox County Schools
Response to Intervention (RTI²)
Progress Monitoring Letter

Student: _____ Date: _____

Teacher: _____ Area: _____

Dear Parent,

A letter previously notified you that your student is receiving additional academic support in intervention. During this intervention period, your child has received small group, systematic intervention that targets his/her individual skill deficits. Your child's progress has been monitored regularly using assessments that are specific to the academic need. Attached you will find a graph indicating your child's progress over time.

Systematically, comprehensive data is reviewed on each student to ensure individual student needs are being met through academic support services. Progress is determined by the overall trend of the data shown on the graph, as well as additional data provided by your child's teachers.

At this time, your child's data indicates that:

	Additional intervention support is no longer needed.
	Intervention is meeting your child's needs and will continue.
	Progress has been made with the current Tier 3 intervention support; therefore, intervention support will decrease to Tier 2 level of support.
	Custom
	Intervention strategies will be adjusted to more adequately meet your child's academic needs.
	Current intervention support needs to be more intensive. Tier 3 support is needed in order to address your child's academic deficits.
	Further evaluation may be needed in order to meet your child's academic needs. We will be contacting you regarding a meeting to discuss your child's progress.

Thank you for your support. It is our goal to work together as a team in all aspects of your child's education. If you have additional questions or concerns, please contact your child's teacher.

Respectfully,

RTI² Team
