

Honors Precalculus Summer Assignment

2020

Mrs. Shipley

Welcome to Honors Precalculus! I look forward to working with you during the 2020-2021 school year. While you are enjoying your summer, please take time out to complete the assignment posted below. This assignment is designed to help make the transition into this challenging course as smooth as possible, and to keep your math skills from deteriorating from lack of use. The more you do over the summer, the easier it will be when school starts, and the more comfortable you will feel with the pace of the class.

Assignment Requirements: Even though the assignment and your answers will all be online, you **MUST** show all work in order to receive credit! All work must be completed on paper in a neat and organized manner. No work, no credit! The majority of the questions should be completed without the use of a calculator (except for the trigonometry questions).

Due Date: This assignment must be completed by the first FULL DAY of classes during the semester that you have Honors Precalculus, and your work must also be turned in on that day. Ten points will be deducted for each day that the assignment is late.

Grading: This assignment will be collected and graded on completion and accuracy. It will count as a quiz grade.

Please see the next page for the assignment details.

This summer, you will be reviewing topics from Algebra 2 using a website called DeltaMath.

Directions:

- Go to www.deltamath.com
- Create an account (if you have not used deltamath before). You may use your school email, or another email, as your username.
- After you create your account,
 - Go to “TOOLS”
 - “Manage Login & Teachers”
 - Press the “Add Teacher” button
 - Enter the teacher code 178091
 - Select HPC Summer 2020 from the drop-down menu
- Click the “DeltaMath” symbol in the upper left-hand corner.
- You will see an Assignment, “Honors Precalculus Summer Assignment 2020”. There are different skills listed. You will need to correctly answer four problems for each skill. Each skill has a video that you can watch as a reminder of how to do a problem.

I look forward to working with you during the coming year!
