Chilhowee Grade Level News

Fifth graders are researching people for Black History Month for ELA/ Social Studies. In math and science, students will be learning about Katherine Johnson and doing a STEM activity to celebrate Black History Month. Middle School visits are coming soon!

The Smokies' Trip is on May 13 and there's a letter that's being developed to document behavior expectations required for attendance.

3rd grade teachers are asking parents to continue studying multiplication facts and read with your child each night. When your child reads aloud to you, encourage him/her to read with expression and then retell what was read. Our data is showing growth in ELA and math, so help us continue this by working with your child at home. Thank you for the true home-school partnership.

A Message from Your Administrative Team

This year, our school's focus has been improving our instructional practices in every classroom. We recently had 6 Chilhowee staff members attend a reading and literacy conference in New Orleans, LA. We also have focused on promoting a positive culture with PBIS. In order for us to improve our school's scores, we have to make sure our students are reading and practicing their math facts every chance they get. **Thank you for reading with your child at least 20 minutes every day and practicing math facts.** Flash cards and math fact fluency games are wonderful resources. It takes a village to raise our children. Thank you for joining us and being a part of our Chilhowee village.
