

Farragut Families

I have been made aware of Instagram accounts that contain pictures of our students. We have reported a few of these accounts and they have been removed from Instagram. It is my understanding that it is against Instagram's policy to have accounts that post pictures of minors without consent. If you or your child is on Instagram and find an account that is inappropriately using images of FMS students, please take a moment and report them to Instagram and the account will likely be removed. The strength of the Farragut Middle Community will be more effective than one person doing all of the reporting. Thank you for your support in making our school community safer and less stressful for our students.
