

Technology Information for Farragut High School (2021-2022)

KCS is providing Dell Chromebooks 3100 to students again this year! In order for students to check out a device, the parent must first complete a device agreement (linked below). Please discuss the device agreement with your student so that they know the expectations of using the Chromebook throughout the school year.

Insurance for the 21-22 school year can be purchased for \$20 and be paid through School Cash online (use the link below to purchase insurance). The insurance must be paid for by **September 30th**. This insurance covers missing keys, cracked screen, general damage, and lost device. This insurance does not cover the charger.

We are encouraging students to purchase a case for the device, to provide additional protection to it. Cases can be purchased through Amazon or Dell. Students will not be allowed to put stickers directly on the device, which is another reason we are encouraging cases for the Chromebooks (so that students can put stickers on the case if they choose to do so).

Once the technology agreement is completed (see link below), a device will be checked out to the student at Admirals' Launch (10th-12th grades) or 9th grade orientation. Students are expected to bring their device to school each day fully charged. If a student loses their charger, they will be assessed \$20 to replace the charger with a new one.
