MISSION

Spring Hill's School Counseling program contributes to a safe, positive learning environment where we are passionate about success for all students. It maximizes every student's social/emotional, educational and career development potential, in order to become responsible citizens and lifelong learners.

VISION

The vision of the Spring Hill School Counseling program is to create responsible citizens and lifelong learners, through the development of academic knowledge, career readiness, and social/emotional growth.

BELIEFS

- All students have the ability to meet their full potential when provided a safe and supportive learning community.
- The school counseling program serves a central role in meeting students' developmental needs through interventions in academic, career, and personal/social domains.
- Student needs can be best met through a data-driven comprehensive school counseling program in collaboration with all stakeholders.
- A comprehensive school counseling program is tailored to meet students' educational and developmental needs as identified through needs assessments that have been translated in to attainable goals.
- The American School Counselor Association ethical standards should guide the work of the school counseling program and school counselors.

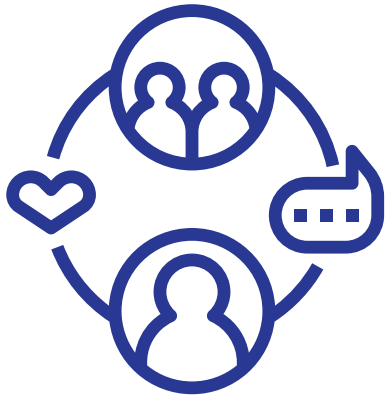

SCHOOL COUNSELING

DEPARTMENT

WHAT DOES A COUNSELOR DO?

- Teach SEL lessons about social/emotional, academic, and college/career skills
- Run small groups about topics like grief, calming strong feelings, and friendship skills
- Provide short-term individual counseling for students, as needed
- Meet & communicate frequently with families and school staff
