

Dear West Parents, Guardians and Students,

In anticipation of the Tennessee Tax Free Weekend, we wanted to provide a generic supply list so that you can take advantage of tax free school supplies. Please note that once school starts, students will receive a syllabus for each class that may request more specific, specialized supplies. Also, some teachers through Aspen will also email out their more specific lists.

The 2020-2021 West High School generic supply list is as follows:

- College ruled paper
- Three ring binders (size and number will be up to student's organizational preference)
- Divider tabs
- Black, blue, and red pens
- Pencils
- Highlighters
- Graph paper
- Post Its
- Optional Calculator (TI-84+ is suggested)

Specific supplies for freshman math classes:

- Algebra - notebook or binder with paper, highlighters, pens, pencils, graph paper, ruler
- Geometry - notebook or binder with paper, highlighters, pens, pencils, compass, protractor, ruler, graph paper
- Calculators - If you have the ability to purchase a graphing calculator for your student (especially if they are considering a STEM field), we recommend the TI-84. There will be other options that students will have to use in the class if purchasing a graphing calculator is not possible.

Again, this list is generic and there might be more specific supplies given by the teachers through their syllabus. We look forward to having a great 2020-2021 school year at West High School.

We are....OneWest!!!!
