

Morning Car Rider Line

- For morning drop off, please pull around to the school mailbox in Lane “1” to begin student drop off.
- Cars will then pull up behind the 1st car and students will exit the car to the building’s entire length of the front sidewalk.
- Once cars have dropped students off, they may exit in a single file line.
- Then another group of cars will pull up to the mailbox and continue the process. Please do not pull around other cars to exit as this is a safety issue for all stakeholders.
- If the line is backed up, you may drop off your child in the lower lot “2” in a single file line. (If safety becomes an issue, we will have to discontinue this part of the drop off.)

Please do not drop students off in the upper staff as this is a safety issue. In addition, cars dropping students off are blocking teacher parking spaces.
