How to Access TVAAS School Value-Added Report

- Log in to https://tvaas.sas.com/. If you cannot remember your username or password, click on the link to have it sent to you via e-mail.

- The first report that comes up is the value-added report for your school for math.
- To change to a value-added report for a different subject, select Tests/Subjects from the toolbar at the upper left of the screen, then select the test subject that you want to see.

- To print a report, select the “Print” button from the upper right, and select Full Color. Note: If you print any other way, the report may not print with the full highlighting so will be difficult to read.
