

2017–18 Programs of Study

Tennessee’s Career and Technical Education (CTE) programs of study are meant to provide a relevant framework of industry-aligned, rigorous courses that progress a student in knowledge and skills year over year. They provide invaluable opportunities for students to experience a subject they are passionate about and explore interests that lead to postsecondary learning and future career paths. These sequenced courses also reflect and support the three credit elective focus requirement for graduation. Level one courses are encouraged to be taken by students in ninth grade; however, districts may make scheduling decisions that work best for their communities and students.

Work-based learning (WBL) is seen as a valuable opportunity for all CTE students. The **Work-Based Learning: Career Practicum** course may substitute for the Level 4 offering in all Programs of Study. For more information, please refer to the department’s Work-Based Learning Policy Guide at: <https://tn.gov/education/topic/work-based-learning>. Early postsecondary opportunities (EPSO), such as dual enrollment and dual credit courses, are also a valuable opportunity for all students.

The **Dual Enrollment course codes** may substitute for the Level 3 or 4 course offerings in any aligned career cluster’s programs of study where those course codes represent postsecondary courses. Aligned **industry certifications** have been placed under the corresponding CTE course within the program of study to demonstrate where students have the opportunity to sit for industry and postsecondary aligned industry certifications.

Career Exploration (6166) is available to orient eighth- and ninth-grade students to high school, postsecondary, and career options and develop 21st century skills. This course can serve as a prerequisite for any CTE course and program of study; however, it is not a required part of any program of study and should not be counted toward CTE concentrator status.

For additional information about courses or programs of study, please reach out to the career cluster consultants or visit our webpage at: <https://tn.gov/education/topic/career-clusters>.
