	<b>Guidelines for Managing Life-Threatening Food Allergies</b>	<b>J-356</b>	<b>12/07</b>
		Reviewed:	Revised:
	<b>9/17</b>	<b>11/17</b>	

1 School personnel who have been trained by a Registered Nurse are permitted to administer epinephrine  
2 when the school nurse is not available. If a student does not have an epinephrine auto injector and/or a  
3 prescription, the school nurse or trained personnel may administer the schools independent supply of  
4 epinephrine when responding to an anaphylactic reaction. If a student is injured due to the administration  
5 of epinephrine by a school nurse or other trained personnel, they shall not be held responsible for the  
6 injury unless administered with an intentional disregard for safety. Each school shall maintain at least two  
7 (2) unlocked secure epinephrine auto injector locations, including but not limited to, the school office and  
8 school cafeteria.

10  
11 **GUIDELINES**

- 12
- 13 • Education/training for school personnel on the management of students with life-threatening  
14 allergies to include notification of Emergency Medical Services (EMS).
- 15
- 16 • The school nurse or principal shall maintain a record for each student at risk for anaphylaxis.
- 17
- 18 • Development of strategies to reduce the risk of exposure to anaphylactic causative agents in  
19 classrooms and common areas such as the cafeteria.
- 20
- 21 • Dissemination of information on life-threatening allergies to school staff, parents, and students.
- 22
- 23 • Development of extracurricular programs related to anaphylaxis, such as nonacademic outings and  
24 field trips, before and after school programs, and school-sponsored programs held on weekends..
- 25
- 26 • Students with written and signed statement from the student's or licensed health care provider that  
27 supports:
  - 28 a. Diagnosis of anaphylaxis
  - 29
  - 30 b. Identification of food or other substances to which the student is allergic
  - 31
  - 32 c. Indication of prior history of anaphylaxis any prior history of anaphylaxis
  - 33
  - 34 d. Recommendation of emergency treatment procedures in the event of a reaction
  - 35
  - 36 e. Completion of Knox County Schools Allergy/Anaphylaxis Allergy Action Plan to include  
37 substitute meals and self-administration readiness.
  - 38
  - 39 f. Lists the signs/symptoms of a reaction
  - 40
